Mail this application with a check for your \$50 co-pay fee to:

Inverness Fire Department  
PO Box 469  
Inverness, CA 94937

Or, drop off the application and fee at the Inverness Firehouse on Inverness Way North in the payment slot located next to the office entrance.

**© In addition to your co-pay, Measure W TOT funds are helping pay for Chipper Days**

### ***FIRE SAFETY TIPS***

- A well-maintained defensible space is essential to improve your home's chances of surviving a wildfire. You create a defensible space as a buffer between buildings on your property and the grass, trees, shrubs, or any wildland area surrounding your property. A resource for learning how to create and maintain a defensible space is the website of FIRESafe MARIN ([firesafemarin.org](http://firesafemarin.org)). You can also learn about the State codes and County ordinances that require a defensible space around all structures.
- If you are on a PRIVATE ROAD, it is the responsibility of all the property owners who share use of the road to cut dry grass along the roadside and to keep the roadway passable for emergency vehicles.
- **Mow before 10 a.m., and never mow on a hot or windy day.** String trimmers are safer than metal-blade mowers for clearing vegetation. Never use power tools outdoors when a Red Flag Warning is in effect.

**NOTE: FIRESafe MARIN may also be offering a chipper day in Inverness on August 31. For details, eligibility criteria, and to sign up, visit [www.chipperday.com/marin](http://www.chipperday.com/marin).**
