BASIC CHARGE

The “Basic Charge” appears on each customer’s bimonthly water bill. This charge is billed **in advance**—i.e., each bill includes the Basic Charge for the **next** two months.

The amount of the Basic Charge for all customers is **\$121.00** bimonthly. The Basic Charge covers Water System expenses that apply equally to all customers without regard to the amount of water used by a customer. Examples of Water System expenses covered by the Basic Charge include such fixed costs as meter reading, customer account maintenance, billing, and collection; day-to-day system operations; system improvements and major maintenance projects; administrative services; etc.

A customer household that qualifies as very low income or extremely low income under Federal guidelines may be eligible for a reduction in the Basic Charge. Contact the District office for details.

USAGE CHARGE

The usage charge is based on the number of “units” of water you use in a two-month period. One unit is 100 cubic feet, or 748 gallons. Water meters are read every other month, 8-10 days before you receive the bill. Your Usage Charge is determined by the difference between your meter readings at the beginning and the end of the two-month period. Thus, each bill you receive includes a Usage Charge for the past two months and the Basic Charge for the next two months.

USAGE RATES SCHEDULE (bimonthly)

<i>Units Used*</i>	<i>Rate</i>
1 – 12	\$2.70 per unit
13 – 36	\$4.20 per unit
37 – 48	\$5.90 per unit
49 – 60	\$8.10 per unit
61 & up	\$24.40 per unit [†]

* 1 unit = 100 cu ft = 748 gallons.

† This rate is \$8.10 for non-residential customers.
