

# Hazard Mitigation\* Planning

## Community Meeting

Thursday **May 25, 2023** 7 to 8 pm

**Point Reyes Presbyterian Church** - 11445 CA-1, Point Reyes Station

Presented by: **Marin County Office of Emergency Management**

Sponsors: Point Reyes and Inverness Disaster Councils

West Marin Climate Action

West Marin Community Response Team

**Steven Torrence** - Director, Marin County Office of Emergency Management, will:

- introduce the process to update the hazard mitigation plan and
- conduct a listening/planning session to identify critical hazards in West Marin.

\* **Hazard Mitigation** is an important component of the emergency management process: →

- It is any action taken to reduce or eliminate the long-term risk to human life and property from identified hazards.
- Mitigation can reduce or eliminate the need for an **emergency response** and greatly reduce the **recovery period**.

Marin County uses its [Local Hazards Mitigation Plan \(LHMP\)](#) to prioritize action and funding to mitigate hazards. This planning update will address new and emerging threats, such as climate change and poor air quality.

You can let Marin County planners know your priorities for protecting West Marin from natural and man-made hazards by:

- **Attending this Community Meeting** Please RSVP to Roy Pitts - [tracingrp@gmail.com](mailto:tracingrp@gmail.com)
- **Completing the [LHMP survey](#)**

See the excellent background material prepared by Marin County Office of Emergency Management with interactive maps of current hazards: [Marin County Hazard Mitigation Plan](#).
